

## The Ins and Outs of Remote Patient Monitoring

### Online Forum: August 21, 1:00–2:00 pm CST

Join the Partnership for a Connected Illinois and a panel of health care executives and professionals to discuss the core components of building the foundation of a successful Remote Patient Monitoring (RPM) program, how to grow and mature the program after initial adoption, and how to sustain it as well as learn about the wide application of RPM across the continuum of care. There will also be a brief panel discussion and time for Q&A.

#### **Key learning objectives:**

- Identify common remote patient monitoring modalities
- Recognize key program components for effective remote patient monitoring
- Understand benefits and challenges of remote patient monitoring for healthcare professionals in various settings

**Presenters:** Donna McHale, Huron; Bernie Benassa, CareSimple; Matthew Drew, Alpha Omega Health; Dr. Mary Williams, DNP, FNP-BC, Urgent & Primary Care of Clarksdale; Nic Thomas, APRN, Horizon Health; and Dr. Brady Steineck, MD., Community Health Care, Inc.
